

# ANILOX METERING TECHNOLOGY

Here at Anilox Metering Technology we have developed 4 different types of Anilox System Conversion Unit for your Coating line. This new development gives a choice of systems so that you can choose which Unit best suits your needs. However we will also custom design and build an Anilox Metering Conversion System should you have different needs to the 4 systems below. To request a quotation for any of these systems or to find out more please email David on david@aniloxmt.com
